

# DeepMail Factsheet

As an integrated feature of DeepBox, DeepMail provides a seamless and secure solution for effectively sending your documents digitally.

**DeepMail replaces RMail**

# DeepMail facts

## Benefits

DeepMail can be used to digitally send all types of documents. It is particularly suitable for sensitive, confidential, and personal documents such as wage statements, pay slips, or references.

## Data protection

DeepMail meets the requirements of ISO 27001:2022 certification as well as GDPR and revDSG standards. With data stored exclusively in Swiss data centers, your information remains completely protected.

## Login

When logging in for the first time, you will be asked to log in with your email address and password for two-factor authentication. Registration with the recipient's email address is required.

## Cost

Each email sent will cost CHF 1.00.

If you have any questions about integrating DeepMail into your company, please contact your PKF representative or:
